FUNERAL OF JAMES R. DICKSON

Services This Afternoon at the Residence of His Father.

The funeral services of the late James R. Dickson will be held this afternoon at 2.30 o'clock from the residence of his father, A. W. Dickson, 616 Quincy avenue. Interment will be made at Dunmore cemetery.

The deceased was a member of the class of 1900 of Princeton, and a meeting was held last night of the members of that class residing hereabouts. committee consisting of Henry J. Cochrane, George L. Denny, Clarence A. Hastings, George H. Lathrope, Worrall F. Mountain and Charles Geomans prepared the following minute:

It has pleased Abnighty God in His wise providence to take from us our beloved class-mate, James Reid Dickson.

recording his death we treasure the memory In recording his death we treasure the memory of his strong Christian character, lovable disposition and noble manhood which he so constantly displayed during his whole university course and which endeared him to us all. We are sure that we but voice the feeling of all our class when we express our deepest sorrow at his untimely death and we wish to extend our heartfelt sympathy to his parents and his family in our common bereavement.

The minute will appear in the to-norrow's Daily Princeton and Alumni

Dr. Lindabury, Surgeon, diseases of comen a specialty, 215 Connell building. Hours: 11 a. m. to 4 p. m.; 7 to 8.80 p. m.

GRANT DEMAND

SENTIMENT EXPRESSED BY LO CAL COAL MEN.

They Agree That the New Demand Formulated Yesterday at Wilkes-Barre Will Not Be Acquiesced in No Matter What the Consequences. Companies Claim They Are Prepared to Fill the Places of the Pump Runners, Firemen and Engineers-More Trouble at Smith-

Local coal men, while not in authorty to speak definitely on the subject, declare there is no likelihood of the operators granting the new demand formulated by the mine workers' ex-ecutive committees yesterday in

The demand, in plain words, is that pumpmen, firemen and engineers be granted an eight hour day without reduction of wages. If the demand is not acceded to before Monday June 2, 1902, these men are directed to quit

In commenting on the demand, one superintendent last night said that as far as his company was concerned there was no worry about the possibility of the pumpmen, firemen and engineers being called out. The company has anticipated this possibility he said, and is prepared to meet it. There will be no difficulty, he declared. in filling the places of the pumpmen and firemen. With the engineers it is different, but his company, he said, had enough competent men who would answer an emergency call to assure a full force of men for all its engines. He expressed some doubt as to the engineers responding to a call to quit work Most of them, he asserted, are members of the union unwillingly, and not in sympathy with the strike. When it comes to deserting the company at a critical time it can be relied upon, he averred, that they will be at least very reluctant to quit

WILL NOT GRANT IT.

The speaker stated that the other companies to the best of his knowledge and belief were in a position similar to his own. They will not grant the demand, and if the pumpmen, firemen and engineers go out, others will be put in their places.

Further, he said, if it should come to pass that the places of these men could not be supplied the companies would proportionately lose no more than the miner in the long run, if as much, Water will not destroy coal, he pointed out. It will be there still, for the operator, just as valuable as it ever was. cost of pumping out the mine is not to be compared with the loss in wages the men will suffer while waiting for the mine to be made ready for work, "At all events," he concluded, "you

can say, emphatically that if the operators knew to a positive certainty that the mines would be flooded beyond all possible redemption, the miners' new demand will not be granted."

At present the engineers and pumpmen work on two shifts of twelve hours shifts of eight hours each with a swing shift on Saturday night and

There was no further disturbance, Livery. Boarding, Heavy Teaming yesterday, at the Grassy Island wash- where from six to twelve come into ery in Olyphant. The company, so it is stated, had no immediate need of its product, and rather than "rile up the community," as one official put it, the washery was allowed to remain idle. When it becomes necessary to replensh the culm supply, it was stated, the washery will be started up.

TWO SHUT DOWN.

The Delaware, Lackawanna and Western company did not operate the Diamond and Bellevue washeries, yester-day. There was no effort made by the strikers to close them down. The company, like all the others, is running its washeries solely to supply fuel for its bollers, and having secured all the supply it cares to carry shut down the washeries until the supply needs re-

plenishing. It was not so quiet, however, in the ower end of the valley. Another disturbance occurred at the Butler washery, operated by the Erie company at Smithville last evening. About 7 o'clock five men who had been laboring at the washery quit work and started for their boarding place at Pittston. An hour or two previous a crowd gathered about the place and numbered from 600 to 800 when the men appeared.

As they started toward Pittston the crowd followed. A committee asked the non-union men if they intended to continue working at the washery and received a reply in the affirmative. At this some one in the crowd threw a stone and the non-union men drew re-

Weapons then appeared in the crowd and shots were exchanged in rapid succession. The running fight was continued along the road for nearly a mile when the non-union men took refuge in their boarding house and the crowd

SHOTS WENT WILD. Although numerous shots were fired from both sides it is not learned that

any one was injured by bullets. One or two of the non-union men, however, THE NATIONAL EISTEDDFOD.

were hurt by being hit by stones. The Wholesale Butchers' association, on Tuesday, decided that while the strike is on cash payments should be lemanded of the retailers. The drivers take along the bill when delivering the goods, and if they do not receive cash on delivery, they are instructed to re-

fuse to leave the goods. Last night the Retail Butchers' association met at Blatter's hall to consider the new order of things. The sentiment of the meeting was strongly in favor of demanding cash from the consumers but final action was deferred until next Wednesday night.

A force of carpenters is at work on mountain side above Avondale erecting a dwelling for the men em-ployed by the Delaware, Lackawanna and Western company in fighting the Jersey mine fire. When the regular fire fighters quit work a few weeks ago at the call of President Nicholls, of District No. 1, United Mine Workers of America, the company hired non-union men in their places and these had to be taken to and from work each morning and evening on a train. The company decided some time ago to house them near the scene of their labors. A cook has been engaged to prepare meals for the men and a barber will be provided to trim their hair and shave

THEY WERE BUNCOED.

Thirty foreign - speaking strikers started yesterday on the Lackawanna road for New York to take ship for a visit to the old country. A sharper, who got into their good graces, collect-ed \$4.50 apiece from them to buy their tickets and arranged to see them through to New York. When the train came in at the Scranton station he put them aboard the smoking car while he went back presumably to ride in one of the other coaches.

But if he got on at all he did not remain on very long. The thirty vic-tims refused to pay their fare and were put off at Washington, N. J. They are there yet according to the latest re-

The rush of applicants looking for work under the city continues every day, as the result of the strike. The average number of striking mine workers who appear in the office of Director of Public Works Roche every day looking for jobs is about twenty and any-Recorder Connell's office every day looking for work.

As many as can possibly be engaged have been already employed to work on the streets and with the street cleaning gangs. No more men can possibly be employed under present con-

ORDINANCE WAS VALID.

Supreme Court Says the West Lackawanna Avenue Viaduct Can Be Built.

Below is given the opinion of Justice Mitchell of the Supreme court in the viaduct case It shows that the Rawlins 120 viaduct case. It shows that the city Rothernel can build the viaduct provided for in the ordinance attacked in the equity proceedings. That ordinance directed that a viaduct stretching from curb to curb be erected on West Lackawanna avenue from Seventh to Ninth streets. The opinion: The general scheme of the constitution with re-

gard to the amount of municipal indebtedness i clear, Section eight of Article nine divided such indebtedness into three classes, considered with indebtedness into three classes, considered with reference to amount, first, debt exceeding seven per cent, of the assessed value of taxable prop-rty, which is absolutely prohibited, except as to cities whose debt exceeded seven per cent, at the time of the adoption of the constitution; sec-ond, new debt, or increase indebtedness by the ond, new debt, or increase indebtedness by the municipal authorities, which is permitted to the extent of two per cent, of assessed value; and third, new debt or increase of indebtedness exceeding two per cent, but less than seven pe cent. of assessed value, which is permitted with the assent of the electors at a public election. The words of the section with which we are directly concerned are: "Nor shall any mu-nicipality or district incur any new debt or increase its indebtedness to an assessed valuation of property without the assent of the electors there of." This, though a limitation on the power of creating debt is also a recognition of its exist ence. The power to raise and spend money for

This, though a limitation on the power of public purposes is a necessary attribute of all governments, and in our system has always been exercised by the legislative branch of municipalthe state has prescribed. The constitutional pro-vision puts a limit on the power and on the leg-islature's authority to confer it, but at the same time is a recognition of the power as exercised by the municipalities.

Hitherto it had been without limit, not only as to amount of expenditure but also as to time and mode of payment; it is still without limit as to amount of expenditure if paid or means of payment provided at the time, but beyond two per cent. of assessed value it cannot be author-ized as a debt for the future without the assent of the electors obtained at a public elector.

The Eisteddfod headquarters is now opened at 505 Linden street. The diagram for the sale of reserved seats will be opened Friday morning, May 23. As these seats are limited to 1,500, intending purchasers should be prompt in making application for same.

emainder created by the councils without special authorization by the electors might be increased by the estimated debt to be incurred under the ordinance without reaching the two per cent. limit. Under such circumstances the debt was within the authority of councils and the ordinance

The decree is reversed and bill directed to b dismissed with costs.

STANDING NOT CHANGED

Only Average Bowling Done by Teams in Scranton Bowling League Last Night.

The standing of the several teams in the Scranton bowling teams were not changed by last night's bowling. The Franklins won two games from the South Side team on the Arlington alleys. Neither team showed up in good style and the scores made were not very high. The score:

Evans	178	143	135 456
W. Zeisman	175	138	164 - 477

Kellerman came next, with 9, and then L. E. Stanton, with 8. The others reported as follows: William Rodriguez, 4; Charles Burns, 3; Homer Kresge, 3; William Sherwood, 2, and Maxwell Shepherd, 1. Homer Kresge advanced from tenth to ninth place, and L. E. Stanton from twenty-seventh to twentieth. The firs eight leaders remain unchanged from their positions as published yesterday

Lodore Will Be the Mecca for Excursionists the Coming Season. All indications point to Lake Lodore as the most popular of all excursion resorts for the fast-approaching season and to even surpass its immense business of last year. The individual excursionist prefers a lake resort, and the scenic beauties of Lodore itself, its farspreading grove, incomparable dance pavilion, its merry-go-round, the de-light of the children, its well-equipped kitchens, clam oven, refreshment booths, Spalding ball grounds, naphtha launches, steamer, large excursion boat and varied other amusements render it a summer paradise, and at the same time the most profit-making resort for churches and societies. There are some splendid dates left, for the privilege of which please appply to W. L. Pryor, district passenger agent, Delaware and

A Relative or Friand to Pass Into the Dark Valley Simply Because th) Doctor Desires to Cling to Madical Etiquatte?

Goes Up the Ladder a Little. PAINE'SCELERY COMPOUND

Is Daily Saving Precious Lives After Pronounced Fallures

of Physicians.

The months just passed of the present year have brought bereavement and dark clouds of sorrow to many homes in our land. Fathers, mothers, sisters, and brothers have been forever removed by the grim reaper, death The large majority of such could have been saved had their friends given them Paine's Celery Compound, in stead of the worthless medicines the

sick ones were forced to swallow. In many familles a too slavish obedience to medical dictation kept the true life saver from the sick and dying ones. Past records of marvelous cures and victories wrought by Paine's Celery Compound were ignored by medical men; in a word, it was unprofessional in their estimation to introduce the life giving Compound.

Ah! Remorse is now doing its quiet but effective work, and those most closely interested are suffering for

their neglect. Will you, dear reader, allow some dear relative or friend to pass from life without making an effort to save the perishing one by Paine's Celery Compound? The virtues and powers of Dr. Phelps' prescription are won-drously far reaching and mighty. Even though your friends have suffered long, and have come to that point where the physician is helpless to save, even then, there is a blessed hope if Paine's Celery Compound is used.

The desperate cases cured in the past and the number of precious lives saved, is the bright, the living proof. that Paine's Celery Compound makes sick people well.
